PROFILE

Final year computer science student. Proactive and reliable as described in work experience feedback from assisting Prontaprint workers. Seeking software engineering internship opportunity to bring his technical skills to a professional level.

EDUCATION

University of Southampton — Southampton
BSc in Computer Science — 2018–present

East Berkshire College — Windsor
A Levels: Maths(A*), Further Maths(A*), Physics(A) — 2015–2018
7 GCSEs at A-C grade including English
Best in School certificate in UKMT Senior Mathematical Challenge

PROJECTS

See full details of the projects on github.com/Arkidiusz or arkidiusz.github.io

- Workout Planner (Java for Android, 2020)
  Planning workouts and tracking strength progression
- Shared Shopping List (Kotlin for Android, 2020)
  Sharing shopping lists in real-time

SKILLS

- **Programming:** Rapidly develops competency in new programming languages using autodidactic resources; proficient with Java; familiar with Kotlin, Haskell, Python, C, C++ and SQL; Acquainted with relational databases - SQLite3, object relational mappings and NoSQL key value data stores
- **Problem Solving:** Creatively simplified a programming language syntax in language design coursework, saving my team time to solve the remaining parts of the task by an estimate of 75%
- **Communication:** Intermediate English, having lived in the UK for 7 years; native Polish speaker; good writing skills, demonstrated in technical reports and through revision of team members' writing
- **Teamwork and Organisation:** Boosted team's performance in software engineering project by initiating contact, composing and managing agile boards on Trello, delegating tasks to others and commencing discussions
